+(880) 1741815523 — mdnihaluddinbijoy@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer experienced in building secure and scalable web applications using Next.js, Express.js, SQL, MongoDB and Redis. Skilled in REST API development, authentication, real-time communication, Redis caching, Docker, Stripe integration and role-based application architecture.

SKILLS

Programming Languages	TypeScript, JavaScript, Go, Python, C++
Frontend Development	Next.js, React.js, HTML5, CSS3, Tailwind CSS, HeroUI, DaisyUI
Backend Development	Express.js, Fiber, GORM, Prisma, Better Auth, JWT, Socket.IO
Databases	PostgreSQL, MongoDB, MySQL, Redis
Tools & Platforms	Docker, Git, GitHub, VS Code, Postman, Vercel, Render
Soft Skills	Problem Solving, Self-Learning, Adaptability

EXPERIENCE

Programming Mentor 2025 – 2026

Programming Problem Solving Club, Feni Polytechnic Institute

Mentored students in programming, algorithms, debugging and problem-solving through coding sessions.

PROJECTS

RentEase — Stripe-Powered Property Rental Marketplace [Live](#) [GitHub](#)

- Developed a full-stack property rental platform with JWT authentication and protected dashboards.
- Implemented Stripe payments, Redis caching, booking workflows, favourites and reviews.
- Containerized services with Docker and developed role-based property and booking management.

Tech Stack : Next.js, Express.js, MongoDB, Stripe, Recharts, Redis, Docker

HireLoop — Subscription-Based Job Portal [Live](#) [GitHub](#)

- Built a multi-role recruitment platform with JWT authentication and role-based access control.
- Implemented Stripe subscriptions, job posting, application tracking and approval workflows.
- Added protected dashboards with recruiter analytics and candidate management features.

Tech Stack : Next.js, Express.js, MongoDB, Better Auth, JWT, Stripe

PetNest — JWT-Secured Pet Adoption Platform [Live](#) [GitHub](#)

- Built a role-based pet adoption platform with Better Auth, Google OAuth and JWT authentication.
- Implemented pet listings, adoption requests, protected dashboards and search functionality.
- Developed pet management, user profiles, adoption status tracking and approval workflows.

Tech Stack : Next.js, React.js, Express.js, MongoDB, Better Auth, JWT
